

## Inclusive Roundabout MT-RNDW 2

### Description

Wheelchair accessible roundabout made of galvanized steel, powder painted, and designed to accommodate two wheelchair users or four people, on four seats at the same time. Each person on the roundabout can move or stop it using a round circle in the middle of the roundabout. It has two gates.

A special protection system is mounted inside the carousel which carousel won't start with open gates. It is only possible to move the carousel once the gates are closed.

A centrifugal brake system prevents the roundabout from moving too fast.

### Colours

Grey roundabout  
Black seats
