

Back Straightener IP-FS19

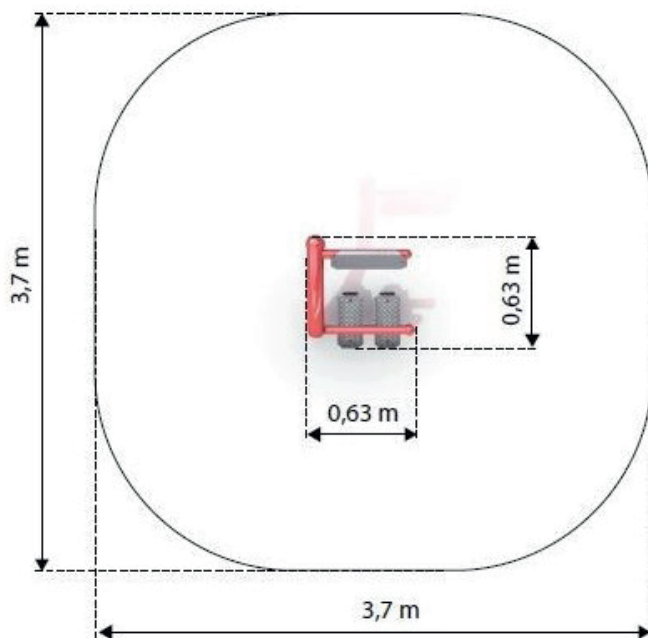

This piece of outdoor gym equipment is perfect for stretching the muscles of the back, abdomen and legs. It also helps to improve body flexibility and the functioning of the cardiopulmonary system.

This product is designed to be permanently installed outside and will withstand all weather conditions.

To use: put your feet on the steps and crossed the hands across the chest with your back to the back rest. Support legs on the bar over the steps. Lean to stretch the muscles of the back.

Materials:

Powder painted steel
Polyurethane back rest
Aluminium foot rests

Height: 0.63m
Length: 0.63m
Width: 0.82m
